

# ULTRABEAM<sup>®</sup>

# TRUCK LOADER

Manually operated bins are a dirty, dusty, hazardous job. But you can end it and improve your business efficiency with FSL's Ultrabeam<sup>®</sup> Truck Loader remote control system.

Your drivers can open bin doors at the touch of a button. They stay warm and safe in their cabs, protected from dust and traffic hazard.

## BENEFITS INCLUDE

Increased Efficiency - Cuts Loading Time by Half

Control from the Cab for Increased Safety and Comfort

Easily Installed on Existing Plant

The Ultrabeam<sup>®</sup> Truck Loader Empties Bins Quickly and Safely from Inside the Cab

## ULTRABEAM<sup>®</sup> TRUCK LOADER

Many quarries still have manual door operation, a dusty and unpleasant job around moving vehicles. It can be particularly dangerous in winter, when bad light and rain restricts visibility.

The Ultrabeam<sup>®</sup> Truck Loader is designed to withstand the rigours of quarry operations in all weather conditions.

Best of all, your quarry becomes more productive. Quarries which have installed the system report increases of 25%.
