REMOTE CONTROL SOLUTIONS

Ultrabeam® Remote Control Systems add Value, Safety and Reliability.

BENEFITS INCLUDE:

Safe and reliable control.

Increased output.

Reduced labour costs.

Easy to install to existing equipment.

Other applications include:

Storage Bins,
Hoists,
Industrial Doors,
Gates and Barriers,
Rock-breakers,
Tail Lifts etc.

Mobile Track and Machine Control

Shiploading Conveyor Control

Concrete Mixer and Conveyor Control

focusing on solutions

ULTRABEAM® REMOTE CONTROL SOLUTIONS

Keyfob Range:

Low cost radio keyfob system for light industrial use

Features	Specifications
433 MHz Licence Exempt Radio Frequency Up to 4 Channels Applications include gate and door openers, etc.	Transmitter Channels: 1, 2 & 4 Button Options Dimensions mm (L x H x W): 80 x 43 x 18 Receiver Voltage: 12/24VDC Relays: N.O. Contacts, Rated at 2A, 30VDC

Compact Range:

High performance radio system for industrial applications

Features	Specifications
433 MHz Licence Exempt Radio Frequency Up to 6 Channels Applications include industrial doors, hoists, lifts, conveyors, etc.	Transmitter Channels: 1, 2, 3, 4, 5 & 6 Button Options Dimensions mm (L x H x W): 118 x 64 x 22 Options: IP65 Sealing Kit, Belt Clip, Rechargeable Kit. Receiver Voltage: 12-30VDC, 110/220/240VAC Options Relays: 2 x C.O, 4 x N.O. Contacts, Rated at 10 Amps, 250VAC/30VDC Output options include latching, timed, etc.

Suregrip Range:

High performance radio and infrared systems

Features	Specifications
Radio or Infrared Options Up to 11 Channels Applications include crushers, radial conveyors, industrial doors, dock loading, etc.	Transmitter Channels: Choice of 1 to 11 Buttons Dimensions mm (L x H x W): 200 x 88 x 40 Options: Belt Clip, Rechargeable. Receiver Voltage: 12-30VDC, 110/220/240VAC Options Relays: Selection of C.O & N.O. Contacts, Rated at 10 Amps, 250VAC/30VDC Output options include latching, timed, etc.

Metal Range:

Heavy duty radio system for industrial applications

Features	Specifications
433 MHz Licence Exempt Radio Frequency Up to 19 Channels Applications include mobile track control, concrete pumping, mixers, conveyors, rock-breakers, etc.	Transmitter Channels: Choice of 1 to 19 Buttons Dimensions mm (L x H x W): 260 x 80 x 35 Options: IP65 Sealing Kit, Carry Pouch, Rechargeable Kit. Receiver Voltage: 12-30VDC, 110/220/240VAC Options Relays: Selection of C.O & N.O. Contacts, Rated at 10 Amps, 250VAC/30VDC Output options include latching, timed, etc.
